

AGN. NO. \_\_\_\_\_

MOTION BY SUPERVISOR DON KNABE

May 15, 2007

**Amendment to Item 5**

The intent of sponsoring AB 800 is to ensure that the notification of the public health officer is fast and efficient in the event of a sewage spill.

I understand that the Chief Administrative Office is in discussion with various organizations representing recreational boaters. It is not our intent to harm recreational boaters.

I, THEREFORE, MOVE that the Board of Supervisors instruct our legislative advocates, County Counsel, Department of Public Health and the Auditor Controller to work with representatives of the boating community to develop statutory language that ensures compliance without unduly burdening recreational boaters.
